

Timeless Elegance Arrives in Santorini

Mylos Group proudly introduces two icons of classic luxury to the island of Santorini — a **Riva Ariston** and a **Rolls-Royce Silver Cloud I**, both presented in concourse condition for exclusive **wedding photography** and **cinematic video experiences**.

[LEARN MORE —>](#)

Create unforgettable moments against the breathtaking backdrop of the Santorini caldera, where timeless craftsmanship meets the beauty of the Aegean.

Riva Ariston

The Icon of La Dolce Vita

First launched in 1950 by the legendary Italian boatbuilder Carlo Riva, the Riva Ariston became a symbol of post-war elegance and Mediterranean glamour. Handcrafted from rich mahogany with flawless chrome detailing, it was often seen gliding across the waters of Lake Como and the French Riviera. Known as the “queen of the water”, the Ariston was beloved by film stars and jet-setters, embodying timeless Italian style and performance.

Rolls-Royce Silver Cloud I

The Grace of the Golden Era

Introduced in 1955, the Rolls-Royce Silver Cloud I defined British luxury motoring through the 1950s and early 1960s. Powered by a smooth 4.9-liter straight-six engine, it combined quiet power with handcrafted refinement. Its elegant two-tone bodywork and flowing lines made it the preferred choice of royalty, dignitaries, and Hollywood icons. Today, the Silver Cloud I remains a masterpiece of design and engineering — a true symbol of timeless grace and sophistication.
